MTI Wireless Edge Signs a Distribution Agreement with WAV® Distribution for North America

WAV Distribution, along with MTI Wireless Edge WiMAX and FBWA antenna solutions, to improve wireless reseller and WISPs accessibility to MTI's high quality, low-cost antenna solutions in the US and Canada

TelAviv, Israel and Chicago IL, USA. December 31, 2007 - WAV, Inc., the value-added-distributor of wireless, security, RFID, VoIP, and portable data-collection equipment, announced that it has become a distributor of MTI WiMAX and FBWA antenna solutions in the USA and Canada. North America is a major market for MTI antenna products and WAV Distribution, with one of the largest stocking positions throughout North America, is a single-stop source for wireless products and solutions. WAV's strong presence in the North American market will improve wireless reseller and WISPs accessibility to MTI's high quality low cost antenna solutions in the US and Canada.

Doy Feiner, CEO & President, MTI Wireless Edge Ltd. said, "WAV provides us with a strong Point-of-Sale for our WiMAX antenna solutions in the US and Canada. We hope to reach more WISP's in North America via WAV, Inc. and their reseller community."

"We found a very good fit between WAV and MTI WiMAX antenna solutions," said Norm Dumbroff, President and CEO of WAV, Inc. "We both focus in the same market and have the same positioning of high quality, low cost solutions. In addition, the quality of MTI antenna solutions and their one-stop-shop positioning serves all of our antenna needs."

###

About MTI Wireless Edge Ltd.

MTI Wireless Edge, a leader in the development production and marketing of high quality, low cost, flat panel antennas for RFID & Fixed Wireless applications offers large portfolio with over 90 models of Linear and Circular, Single and Dual polarity antennas for active and passive RFID Systems. The frequencies that MTI offer antennas for are 450MHz, 865 -870MHz, 902-928MHz, 950-956MHz, 2.4GHz as well as Integrated Enclosure Antenna solution (IAE). MTI Military products include a wide range of broadband, tactical and specialized communications antennas, antenna systems and DF arrays installed on numerous airborne, ground and naval, including submarine, platforms worldwide. MTI's ISO 9001, ISO 14000 and RohS certified development and production plant, based in Israel, produces high quality low cost antennas with superior performances. In house test facilities include antenna test ranges, varying in length from 8 meters to 300 meters. We Are Taking Wireless Technology To The Edge. Visit us at www.mtiwe.com

About WAV, Inc.

Since 1990, WAV, Inc., located in Aurora, IL, has offered value-added services, product availability and expertise to VARs interested in growing successful businesses.
