DISTRIBUTOR INFO

How To Order Licenses

Distributors should place PO's with other Alta Labs product orders. The SKU for the license is **CONTROL-KEY**.

License Key Availability

A license key is available within one business day of submission. Preorder as many as you'd like to have inventory on hand for end users. Talk to your sales representative or master distributor for special distributor pricing.

License Key Process

Email your orders to sales@alta.inc. A rep will contact you as soon as possible.

Alta Labs Direct Availability

End users can purchase a license key directly from Alta Labs for the MSRP price of \$49 (link below). They can purchase a license from a distributor at a discounted cost.
